

AI Roadmap Prioritization (AIR) Workshop

One session aligns stakeholders on the highest-impact AI use cases and produces a prioritized investment roadmap.

Align your organization on the highest-impact AI use cases and walk away with a prioritized investment roadmap in a single 60 to 90 minute session.

Most organizations have no shortage of AI ideas. The hard part is deciding which ones to pursue first, and getting the right people aligned before time and budget are committed. The AIR Workshop brings business and technical stakeholders together in a focused 60 to 90 minute session to do exactly that.

- Use case prioritization across investment buckets: nice-to-haves, quick wins, and strategic investments
- Stakeholder alignment on highest-priority use cases before any build commitment
- Rapid assessment based on ROI potential, technical complexity, and organizational readiness
- Clear next steps for converting AI ideas into real business value
- Assessment of technical readiness and AWS resources that can accelerate time to value

Timeline: Single 60 to 90 minute session.

Pricing: Contact us or your AWS team.
