

Amazon Quick Suite 5x5x5

A funded, fixed-scope sprint that connects five data sources, enables five users, and delivers working AI-powered insights in five days.

Prove AI value to your leadership with live results in 5 days, using a funded, fixed-scope Quick Suite engagement with clear success criteria and no long timelines.

Most AI validation efforts take months, cost significant budget, and end with unclear results. The Quick Suite 5x5x5 is built to be the opposite: a fixed-scope, fixed-timeline sprint that connects five data sources, enables five business users, and delivers working AI-powered insights and automated workflows in five dedicated days.

- Five named business users with secure access, defined roles, and governance
- Five data sources connected: Salesforce, Slack, Outlook, OneDrive, Teams, SAP, BambooHR, custom APIs, S3, Google Drive, Confluence
- Quick Suite Enterprise environment with role-based security and AI-searchable knowledge base
- One custom chat agent for natural language Q&A against your business data
- One automated workflow per business user
